7024425	7	41
7024426	8	42
7024427	9	43
7024421	10	44 - 45
7024422	11 - 12.5	46 - 48

Can be trimmed to size
for a more personal fit

- 100% Polyurethane foam for lasting comfort and performance
- An antibacterial top sheet helps to minimise odour
- Replaces current insole
- Suitable for most types of leisure or everyday footwear

Sorbothane® Single Strike

Designed for activities where the heel is subjected to the most impact shock such as golf and walking. An inbuilt comfort contour and heel cup offers a concentrated shock absorbing solution.

Available for shoe sizes:

	UK	EURO
7024449	3.5 - 5	36.5 - 38
7024450	5.5 - 7	38.5 - 41
7024451	8 - 9	42-43
7024452	10 - 11	44-46

Can be trimmed to size
for a more personal fit

- Provides a concentrated shock absorbing solution for the heel
- An antibacterial top sheet helps to minimise odour
- An addition to or replacement of the existing insole
- Suitable for most sports footwear

Sorbothane® Full Strike

Designed for activities where the whole foot is subjected to impact shock like running, hockey and racquet sports. Full Strike offers a comprehensive shock absorbing solution.

Available for shoe sizes:

	UK	EURO
7024435	3 - 4.5	36-37.5
7024436	5 - 6.5	38-40
7024437	7	41
7024438	8	42
7024439	9	43
7024440	10	44-45
7024441	11 - 12.5	46-48

Can be trimmed to size
for a more personal fit

- Protects the whole foot from impact intense activity
- An antibacterial top sheet helps to minimise odour
- As an addition to or replacement of the original insole
- Suitable for most sport footwear

COOLMAX

7024444	7	41
7024445	8	42
7024446	9	43
7024447	10	44-45
7024448	11 - 12.5	46-48

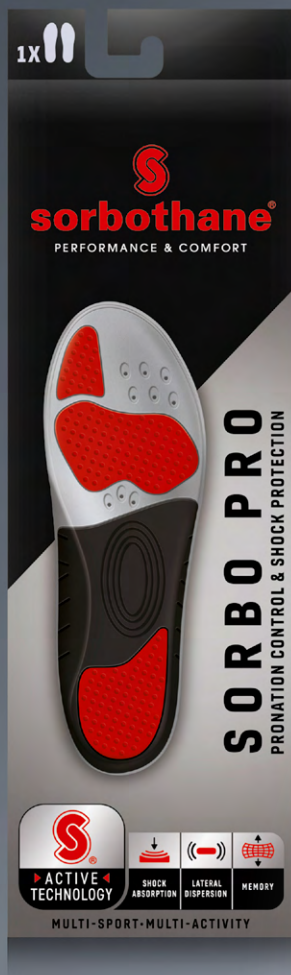

Can be trimmed to size
for a more personal fit

Sorbothane® Double Strike

Limiting trauma to the body, Sorbothane Double Strike Insoles help mitigate the effects of shockwaves produced during exercise. These unparalleled shockwaves can cause knee, back & joint pain, tendonitis and stress fractures. The insole is designed to provide correct support, alignment, and cushioning to the feet, stimulating pain relief throughout the body.

- The insole helps provide correct support, alignment, and cushioning in the feet, specifically in the forefoot and heel area
- COOLMAX fabric provides ventilation and breathability by wicking moisture away from the body
- Made with an antibacterial top sheet to help prevent odours from forming within the shoe
- Suitable for more sports footwear, designed for high impact activities such as rugby, netball, and hiking

Sorbothane® Sorbo Pro

Designed for the sports person who demands ultimate protection to achieve their highest level of performance. Sorbo Pro supports, aligns & cushions the sole of the foot to carefully centre the user's geometry.

COOLMAX®

Available for shoe sizes:

	UK	EURO
7024428	3 - 4.5	36-37.5
7024429	5 - 6.5	38-40
7024430	7	41
7024431	8	42
7024432	9	43
7024433	10	44-45
7024434	11 - 12.5	46-48

Can be trimmed to size
for a more personal fit

- Provides both pronation support and shock absorption
- COOLMAX ventilating fabric, draws moisture away from the body during high impact activity
- An antibacterial top sheet helps to minimise odour
- Replaces current insole

Sorbothane® Heel Pads

World-class Sorbothane insoles help mitigate the effects of shockwaves produced during exercise as well as everyday wear. Providing maximum pain relief, the unique viscoelastic material heightens the body's natural defence mechanisms, preventing injury and protecting weak joints.

The heel inserts are positioned at the point of maximum stride impact, shielding the heel against shockwaves and heel strike. The impact on the heel can cause issues such as ankle, knee, and back pain as well as stress fractures. With concentrated heel strike protection, the Sorbothane Heel Pads can help reduce muscle fatigue and ease the strain on ligaments and tendons.

Sorbothane has constructed a total control top sheet containing advanced, antibacterial technology to kill bacteria on contact, wicking moisture away from skin, and managing odour for optimal hygiene. Offered in a variety of shoe sizes, the Sorbothane Heel Pads provide cushioning for long-lasting comfort. The cushion effect helps to mitigate calf strain and achilles tendon injuries.

Available for shoe sizes:

	UK	EURO
7024453	3 - 5	36 - 38
7024454	6 - 8	39 - 42
7024455	9 - 13	43 - 48

- Heel pads assist in easing fatigue and discomfort during long periods of standing or walking
- Use in conjunction with existing insoles, conforming to everyday footwear for optimum comfort and support
- Ideal for achilles tendonitis rehabilitation, the new antibacterial top sheet minimises odours from forming within the shoe
- Suitable for active lifestyles, providing pure shock absorption at the heel where most impact occurs

Our world-class Sorbothane insoles help to mitigate the effects of shockwaves produced during exercise which can lead to issues such as knee, back & joint pain, tendonitis, and stress fractures
